A BEE-LINE FOR SUSTAINABILITY

175 Putney offers sustainability on every level, from construction methods and materials to energy efficiency and wildlife-friendly greenery.

By remodelling an outdated building into a brand-new one, the building of 175 Putney has saved significant energy and emissions compared with building from scratch. It all adds up – 100% of excavation waste and 99% of construction and demolition waste has been diverted from landfill, re-purposing the building’s existing frame has saved thousands of tonnes in CO2 emissions. Plus, the extensive terraces are a boost for biodiversity.

The building is targeting a BREEAM Outstanding rating.

Sustainable management

100% of excavation waste has been diverted from landfill. 99% of construction and demolition waste has been diverted from landfill

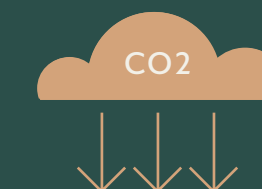

Energy efficient

Energy efficient plant (targeting EPC A rating)
High efficiency LED lighting

Ecology

In addition to extensive planting which has been expertly selected to improve habitats for bees and local birdlife, we are installing bat boxes to the roof

Design features

The addition of green roofs will help to reduce air pollution through a reduction in Co2, while offering enhanced insulation for the building

Sustainability

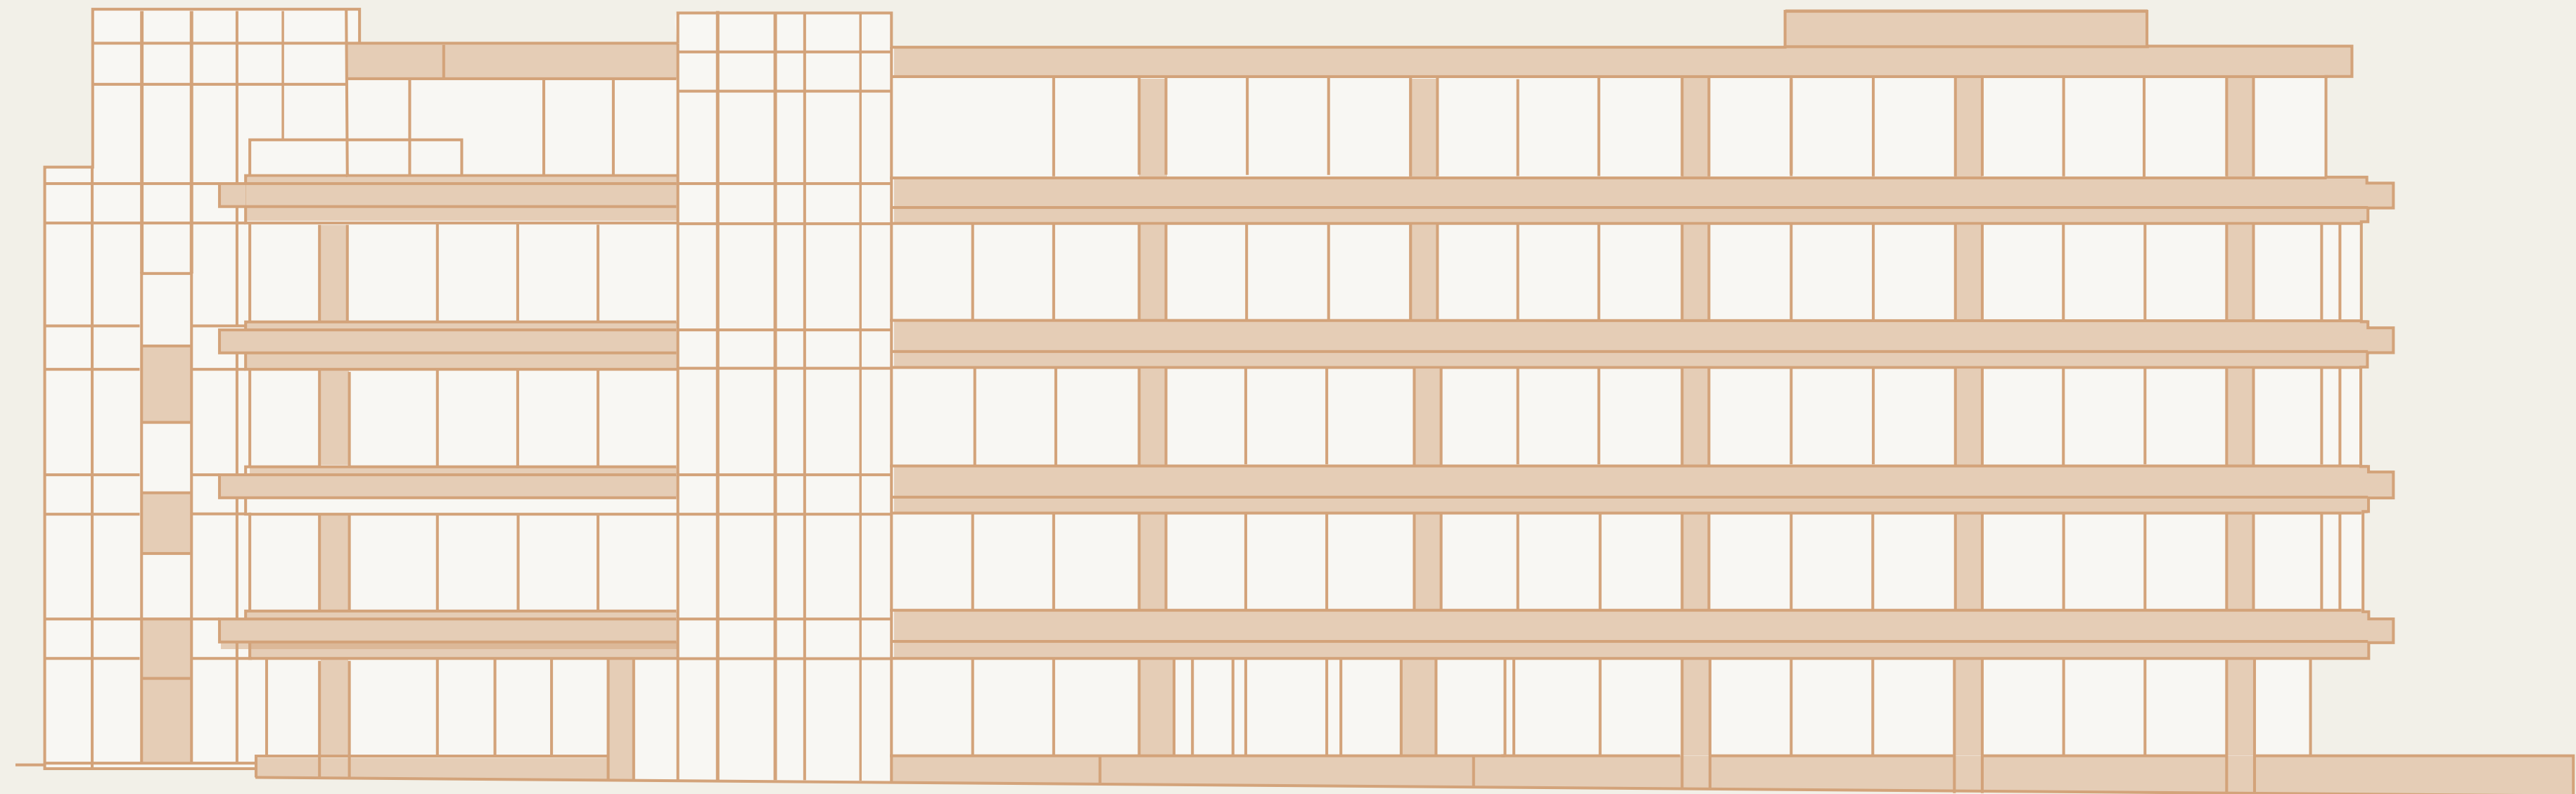

Photovoltaic panels will provide a fully sustainable energy source to all communal areas of the building
